AYER'S

Ague Cure,

Intermittent Fever, or Fever and Ague, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache, or Bilious Headache, and Bilious Fevers, indeed for the whole class of diseases originating in biliary derangement, caused by the Malaria of miasmatic countries.

No one remedy is louder called for by the necessities of the American people than a sure and safe cure for Fever and Ague. Such we are now enabled to offer, with a perfect certainty that it will eradicate the disease, and with assurance, founded on proof, that no harm can arise from its use in any quan-

That which protects from or prevents this risk which he must run in violent attacks of this beleful distemper. This "Conn" expels the miasmatic poison of Faven and Agun from the system and prevents the develop-ment of the disease, if taken on the first approach of its premon tory symptoms. It is not only the best remedy ever yet discovered for this class of complaints, but also the cheapest. The large quantity we supply for a dollar brings it within the reach of every body; and in bilious districts, where Feven and Ague prevails, every body should have it and use it freely both for cure and protection. It is hoped this price will place it within the reach of all-the poor as well as the rich. A great superiority of this remedy over any other ever discovered for the speedy and certain cure of Intermittents is, that it contains no Quinine or mineral, consequently it pro-duces no quinism or other injurious effects whatever upon the constitution. Those cured by it are left as healthy as if they had never had the disease.

Fever and Ague is not alone the consequence of the mis-matic poison. A great variety of disorders arise from its irritation, among which are Neuralgia, Rheumatism, Gout, Headache, Blindness, Toothache, Earache, Catarrh, Asthma, Palpitation, Painful Affection of the Spleen, Hysterics, Pain in the Bowels, Colic, Paralysis, and Derangement of the Stomach, all of which, when originating in this cause, all of which, when originating in this cause, put on the intermittent type, or become periodical. This "Cure" expels the poison from the blood, and consequently cures them all alike It is an invaluable protection to immigrants and persons travelling or temporarily residing in the malarious districts. If taken occasionally or daily while exposed to the infection, that will be excreted from the system, and cannot accumulate in sufficient quantity and cannot accumulate in sufficient quantity to ripen into disease. Hence it is even more valuable for protection than cure, and few will ever suffer from Intermittents, if they avail themselves of the protection this remedy af-

Ayer's Cathartic Pills,

FOR ALL THE FURPOSES OF A FAMILY PHYSIC.

FOR ALL THE PURPOSES OF A FAMILY PHYSIC, are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As = consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they care the every day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanae, containing certificates of their cures and directions for their use in the following complaints: Costiveness, Heartburn, Headache arising from disordered Stomach, Nausca, Indigestion, Pannin and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Janualice, and other kindred complaints, arising from a low state of the body or obstruction of its functions. They are an excellent alterative for the reconstitute of the ble bedy or obstruction of its functions. They are an excellent alterative for the renovation of the blood and the restora-tion of tone and strength to the system debilitated

Ayer's Cherry Pectoral, FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and deagerous affections of the public no longer hesitate what antidote to employ for the distressing and deagerous affections of the public no longer hesitate what antidote to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

Fever and Ague,

from which mankind suffer over a large part of from which mankind suffer over a large part of the globe, is the consequence of a diseased action in the system, induced by the poisonous miasm of vegetable decay. This exhalation is evelved by the action of solar heat on wet soil, and rises with the watery vapor from it. While the sun is below the horizon this vapor lingers near the earth's sur-face, and the virus is taken with it through the lungs into the blood. There it acts as an irritating poison on the internal viscera and exercting organs of the body. The liver becomes torpid and fails to secrete not only this virus, but also the bile from the blood. Both the virus and the bile accumulate in the circulation, and produce violent constitu-tional disorder. The sphere, the kidneys, and the stomach sympathiae with the liver, and become disordered also. Finally, the instinct of our or-ganism, as if in an attempt to expel the noxious ganism, as if in an attempt to expel the noxious infusion, concentrates the whole blood of the body in the internal exercionies to force these to east it out. The blood leaves the surface, and rushes to the central organs with congestive violence. This is the CHILL. But in this effort it fails. Then the FEVER follows, in which the blood leaves the central organs and rashes to the surface, as if in another effort to expel the irritating poison through that other great excretory - the skin. In this disorder must be of immense service in the also it fails, and the system abandons the attempt communities where it prevails. Prevention is exhausted, and waits for the recovery of strength to repeat the hopoless effort another day. These are the fits or paroxysms of Feven and Ague. Such constitutional disorder will of course undermine the health if it is not removed.

We have labored to find, and have found, an

Ayer's Ague Cure, which neutralizes this malarious poison in the blood, and stimulates the liver to expel it from the body. As it should, so it does cure this afflicting disorder with perfect certainty. And it does more, or rather does what is of more service to those subject to this infection. If taken in season it expels it from the system as it is absorbed, and thus keeps those who use it free from its attacks; keeps the those who use it free from its attacks; keeps the system in health aithough exposed to the disease. Consequently it not only cures, but wrotects from the great variety of affections which are induced by this malignant influence, such as Remittent Fever. Chill Fever. Dumb, or Masked Ague, Periodical Headache, or Bilious Headache, Bilious Fevers, Nauralgia, Rheumatism, Gout, Blindness, Toothache, Earnehe, Catarch, Asthma, Palpitations, Painful Affections of the Spicen, Hysterics, Colic, Paralysis, and Painful Affections of the Stornach and Bowels, all of which, when arising from this cause, will be found to assume more or less the intermittent type. This "Agus Cure" removes the cause of these derangements, and cures the disease.

This it accomplishes by stimulating the exerc-ories to expel the virus from the system; and these organs by degrees become habited to do this their office of their own accord. Hence arises what we term acclimatation. Time may accomplish the same end, but often life is not long crough, or is sacrificed in the attenot, while this "AGUR CURB" does it at once, and with safety. We have great reason to believe this is a surer as well as safer remode for the whole clear of discusses which see remody for the whole class of diseases which are caused by the missmatic infection, than any other which has been discovered; and it has still another important advantage to the public, which is, that it is cheap as well as good.
